Small Building Renovation

Project Brief:

Renew Small Holiday Let - Main aim to provide more light.

Project Details

We revamped the rear elevation of the building to provide two new access doors which allow access to the gardens along with allowing as much light in as possible.

The construction was very straight forward with blockwork lintels and a new fabric flat roof which is to be covered later with a green roof system.

We rearranged the internal space to provide deep large rooms and created an overhanging eaves which allows shade to the back third of the main rooms.

The build was simple clean and worked very well site access was a little tricky but no major problems. The grey coloured sponge finished render works well

Project Facts & Figures

Budget: £12,000
Timescale: 6 Weeks
Overspend: £550

Clients Comments:

..... Transforms the building it looks twice the size it was.....
